

Assignment #1 – Website Building: Apple

In this assignment you will be implementing the apple website.

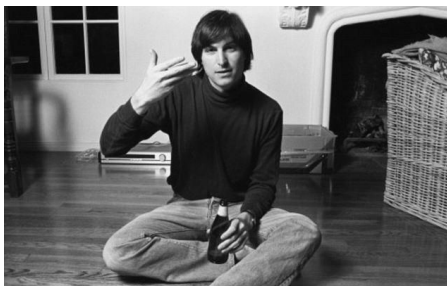

You can already make money out of creating landing pages! First step in world domination!

The following assignment is based on the following subjects:

- HTML
- CSS

Submitting instructions:

- You should submit this assignment by yourself
- Submit the following:
 - full folder structure in a zip file (separate css to a different file/folder)
 - Free text (in hive) - a description of the website. Stuff that you found hard to implement, known bugs and your review of this assignment

The Task

Implement the apple.com website as close to the original as possible.

Use the [inspect element](#) feature in Chrome to figure out fonts and colors but do not copy HTML structure or CSS...
